## About Me

I am a hardworking and positive team player who always pays attention to the deadlines and goals of every project. I am very ambitious and love to challenge myself by working everyday to improve my skills and competences and aim to continuously contibute the biggest value in the company.

## Work Experience

### Digital Marketing Manager @ mediaview publishing | February 2011 - Present

During my time in mediaview publishing I took upon a plethora of different responisbilities, including social media management, Facebook app development, team management, content creation, project management & public relations. This variety and big number of projects, helped me develop all the important organizational skills that are needed in a demanding environment.

notable projects: **mycampus.gr | iq magazine | str8 forward bands**

### Front end developer | Freelancer | February 2008 - Present

I am self-taught in front end development. Since 2008, I have worked on projects around the world delivering websites that integrate the most recent trends, minimal design & high performance.

notable projects: **style with Veni | Athens' Agora | digimag.gr**

### Community Manager / Blogger @Socialab | October 2012 - December 2012

In Socialab I was responsible for the management of online communities from big brand customers. I guest-contributed articles about social media in suit.gr and created digital product proposals for socialab's clients.

### Vice President of Communications @ AIESEC in Greece | September 2007 - August 2010

As part of the team that lead AIESEC in Greece I had a variety of responsibilities including team management of journalists & IT managers, web development, social media management, graphic design, magazine publishing, event management & branding. During my term the results in Communications were extraordinary, while contributing in the goals of the organization.
